

# CLEAN SLATE SERVICES

Start your day with a clean slate!

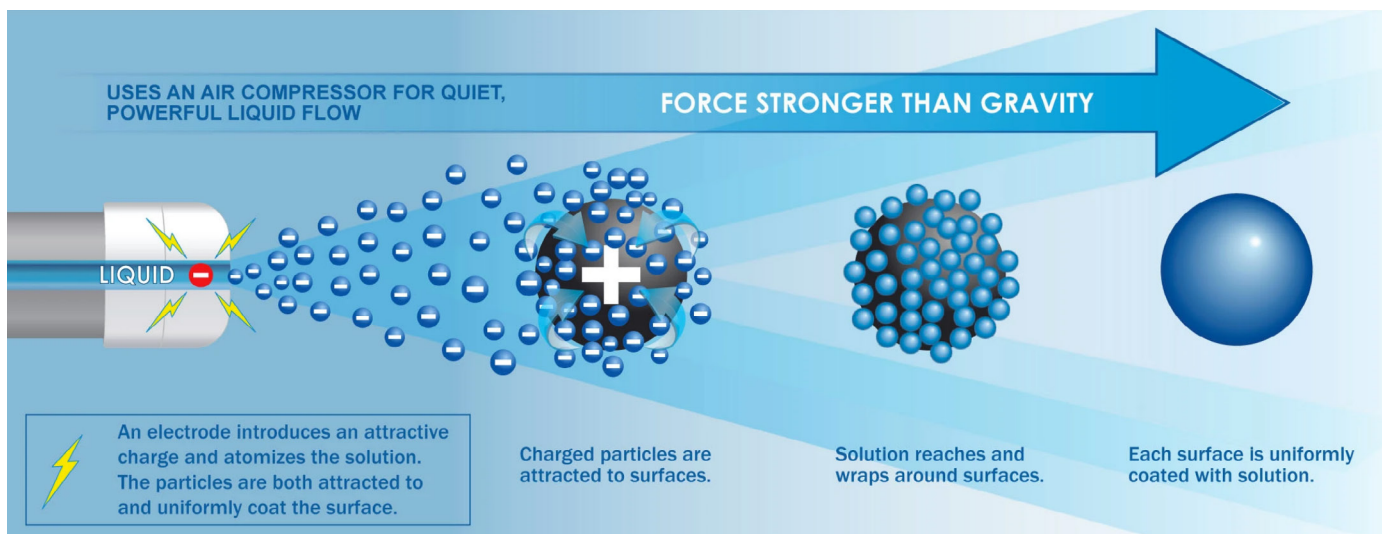

## SUPERIOR COVERAGE WITH TRUSTED CLOROX SOLUTIONS

Clean Slate is proud to offer the first system that pairs an electrostatic sprayer with a portfolio of Clorox® disinfectants and sanitizers. Electrostatic technology enables superior coverage of Clorox® trusted solutions in hard to reach places.

## FOR A HEALTHIER WORKPLACE, PREVENT EMPLOYEE ILLNESS

Electrostatic technology enables Clorox® sanitizers and disinfectants to reach the side, underside and backside of surfaces.

## WHY ELECTROSTATIC VS TRADITIONAL DISINFECTING?

### CLOROX® 360® SYSTEM

- Evenly distributed 360 degree coverage.
- Disinfect 360 5 seconds – two minutes
- Touchless non cross contamination.
- Penetrates hard to reach areas.
- EPA approved-Emerging viral pathogen (N)
- Anywhere sanitizer (food contact surface)  
2 min. Kills 99.9% of bacteria.
- Cleans hard, soft & cloth surfaces.

### TRADITIONAL SPRAY AND WIPE

- Coverage depends on application of worker.
- Average dwell time ten minutes.
- Cross contamination depends on skill of worker.
- Limited in deep recess areas.
- Is your disinfectant EPA Emerging viral approved?
- Kill time depends on solution and dwell time.
- May not be appropriate for all surfaces.

LET US HELP YOU MAINTAIN A SAFER WORK ENVIRONMENT.  
DON'T DEPEND ON A RAG AND SQUIRT BOTTLE.
