Start your day with a clean slate!

ELECTROSTATIC DISINFECTING

WHAT IS IT AND WHY YOU NEED IT FOR YOUR HOME?

The Clorox360 system is the **GOLD STANDARD** for electrostatic disinfecting providing 360 degree wrap around coverage. The disinfectant used is EPA rated to be effective against SARS-COV-2, the cause of covid-19. *The kill rate for the Human corona virus is 2 minutes.* The micron mist is electrostatically charged that clings to surfaces 360 degrees creating a unified web of solid coverage. The micron size particles cling to surfaces that otherwise would not be reached. It is a touchless system that does not foster cross-contamination. The touchless application allows the disinfectant to hold their cationic charge which is crucial to dwell time. Do not trust you family's health to a cloth and a spray bottle.

We are a family owned business since 2009. For more information on how we can electrostatically disinfect your home contact Clean Slate Services at 404-918-6286.

Clean Slate Services cannot guarantee 100% remediation due to environmental conditions beyond our
